Simple. Smart. Solutions.

Terumo's Beating Heart Products offer a versatile combination of the strongest stabilization, lowest profile and easiest positioning to support traditional off-pump and minimally invasive cardiac surgery.

Beating Heart Products

Work Smarter Without Skipping a Beat.

Hercules™ Stabilizing Arm

Robust and reusable, the Hercules Stabilizing Arm provides effective stabilization and positioning of various anatomical structures during Beating Heart surgery.

Titan™ Stabilizer

The Titan Stabilizer provides optimal positioning, stabilization and coronary artery isolation during Beating Heart surgery.

Atlas™ Positioner

The Atlas Positioner combines advanced vacuum stabilization and dynamic tissue adherence to position the apex of the heart during Beating Heart surgery.
